PATRIOTIC SIFTING

ALBERT D. PEARCE WOULD USE DRIVE AS JUDGMENT SEAT TO TEST HEARTS OF MEN

The noon luncheon given today at the Masonic Temple to Red Cross workers in the drive was served by the ladies of the Glendale Lutheran Church. Mr. Ogg, chairman of speakers, was in his usual happy frame of mind and made announcements and introduced speakers in his usual good style.

The leading speaker was Albert D. Pearce, who said by way of introduction:

"One who has lived in Glendale and who over a period of years has learned to know as I have and therefore to respect, as I do, the high purposes of its general citizenship, realizes the futility, on an occasion like the present, of attempting by feeble words, adequately to express the patriotic impulses and the enduring ideals which have vitalized and visualized Glendale's responses in these trying times to the calls sent us from our government.

"You, who in varying capacities have contributed freely of your time and your money to make the Red Cross drive and similar undertakings successful, expect no encomiums and you need none. Your every action emphasizes your 100 per cent Americanism. Your activities to put Glendale over the top speak with most convincing eloquence of your farsighted vision and your intense patriotism. We all take especial pride because of Glendale's ready response to every measure of raising funds to be used by our nation, to prosecute to a successful conclusion this campaign against the most beastly autocracy on History's pages.

As we went over the top in the recent drive for bullet-buying currency, so, I am sure, we shall have real reason for a slight demonstration of purely local pride, when the aggregate subscriptions for this campaign are totalled.

While we ought not to minimize the effect of the cheerful and in many

(Continued on Page 3)

P. O. E. MEETING

The regular meeting of Chapter L, P. E. O., was held at the home of Mrs. A. L. Bryant, Wednesday. Owing to the state P. E. O. convention being held at Orange this week, which many of the members are attending and also on account of the Red Cross drive, the attendance was not large. However, the enthusiasm was in inverse ratio to the numbers present. Reports were given and the year's work cleared up. Preparations for the last meeting of the year to be held at the home of Mrs. Ed Lee June 12 were made.

DEATH OF MRS. MARXMILLER

Mrs. Rosanna Marxmiller passed away in Los Angeles May 21. Mrs. Marxmiller was formerly a resident of Burbank, but had been living with her daughter, Mrs. Sylvia Arevelo, 143 East 80th street, Los Angeles. Funeral services will be held at the chapel of the Pulliam Undertaking company this afternoon at 3 o'clock. Interment in Grand View cemetery.

JUDGE M'CORMICK

PEOPLE OF GLENDALE WILL HAVE RARE OPPORTUNITY SATURDAY NIGHT

A cordial invitation is extended to the public in general to attend a patriotic Red Cross meeting Saturday night.

Judge Paul J. McCormick has been secured as the principal speaker. We need not dwell on the judge's qualification as a public speaker. He is too well known for that. Whatever might be said could not do him justice. His subject will be one of vital interest in connection with the Red Cross war work.

This is an opportunity to hear one of the strongest, best known and most capable speakers engaged in this work of mercy. His talks are of the kind that you would be glad to listen to all day and be sorry to have him stop.

The Elks have kindly offered the use of their club house. It is expected that it will be filled to overflowing.

A. L. Lawshe, vice-chairman of the local Red Cross Chapter, will make some very interesting announcements of the drive, giving the total subscription to date.

All team captains, teams and assistants are expected to be there. The public in general are cordially invited. The speaking will start at 8 o'clock. It is advisable to be there early.

BIRDMAN OF GLENDALE

LIEUT. WELLINGTON RUPP NOW FLYING BEHIND LINES AS A CADET IN FRANCE

The following interesting letter was recently received by Mrs. R. C. Newton of 308 Belmont street from her nephew Cadet Wellington Rupp, who is in the U. S. air service in France. Accompanying the letter were kodak pictures of Wellington and his associates in the service in the heavy clothing aviators have to wear for protection against the cold of the upper air zones. He also sent a facsimile shell made by a wounded French poilu with a German blouse button welded upon it. Wellington is now a Lieutenant. He is well known in Glendale, which has given him a star on the service flag of the High School.

France, April 7th, 1918.

Dear Aunt Rae:

Your dandy letter dated February 22d was received day before yesterday and I was glad to hear from you and that you were feeling better.

There is a big battle raging north of here and has been for several days, as you know of course from the newspapers, but I am unfortunately, not in it and probably shall not be unless it lasts longer than is expected. It is a great disappointment to me, but there will be plenty of war left for all of us, so I am not going to feel discouraged but patiently await my turn.

Flying is just as much sport as ever and I enjoy taking long trips alone. On my altitude tests I had no trouble at all. While I was up about 10,000 feet the other day some clouds and mist shut off my view of the earth and it seemed so lonesome up in space. I enjoyed it, though, because it is so different from the way one would feel any place else. Some days it is so rough in the air, i. e., the wind comes in puffs and knocks the plane around, that it seems as though one is a cork on a choppy sea. One gets used to it, though.

It will be nice if you can go north to Washington and see the folks. If you do, please be careful not to say much about my flying so that Mother will not have an exaggerated idea of my danger. The less that is said, the better it will be, I think.

I have everything I need over here now. Things have become well organized and we can buy such things as sugar or candy at the Y. M. or Quartermaster's Corps depot. I would read those books if I had time, but there is scanty enough time to write my letters. I doubt if I shall have the time, but if you send them I'll do my best. The orange blossome made the think of the pleasant time I had in California. They smelled very nice.

The clippings were interesting, too, but I wish the American newspapers would stop bragging until we had something to brag about. It makes a joke of us for the nations who are actually fighting. If nothing happens I shall be a First Lieutenant by the time this reaches you, so you may address my letters Lieutenant.

I must close now with lots of love and best wishes.

Your nephew,
WELLINGTON.

PRIZE WINNERS

Two boys on Milford street distinguished themselves in the Briscoe word contest, winning first and second prizes. The first was James Smith of 1420 Milford street, who succeeded in making a list of 101 words out of "Briscoe." As a reward he secured $10 in cash and a hundred-dollar credit on a new car.

The second premium, a $100 credit, went to George J. Blech, Jr., who turned in a list of 99 words.

The third premium, which was a $50 credit, was won by H. N. Pfeiffer of 1222 Chestnut street for a list of 92 words.

A fourth prize of a $50 credit was given to P. Priaulx of 128 West Park avenue for a list of 91 words.

Mr. Ward of the Horton Shoe Company, who had charge of the contest here, reports that there were 116 contestants and it took three days' time to go over the returns and determine the winner.

Mr. Ward also states that a new contest will be inaugurated June 1st by the Briscoe people. This will be for limericks, and a cash prize of $25 will be given in addition to a credit on a Briscoe car. As Glendale is rich in poets, there will probably be many entries for this prize.

MEMORIAL SERVICES

Arrangements are being made for memorial services next Sunday afternoon before the N. P. Banks Post at G. A. R. hall at three o'clock. The address will be made by Past Commander Theodore D. Kanouse.

GERMANS WRECK RED CROSS HOSPITAL

HUNDRED NURSES, PATIENTS AND ATTENDANTS KILLED WHEN BOMBS ARE DROPPED FROM GOTHAS

(Special Service to Glendale Evening News)

(By William Philip Simms, United Press Staff Correspondent)

ON THE BRITISH FRONT, May 22.—Over a hundred women nurses, patients and attendants were killed and wounded in German air raids over a large number of hospitals back of the lines. A score of huge Gotha machines circled over their objectives where the Red Cross was plainly visible and dropped enormous bombs to wreck the hospitals and smaller ones to kill the nurses and patients.

British aviators and anti-aircraft guns battling with the Germans brought down the commander's machine. He is now in the hospital and the women he sought to kill are nursing him. The commander says he did not see the Red Cross but was following a railroad track.

Survivors eulogize the women for their bravery. Though dugouts were provided for them to seek shelter all remained at their posts and ministered to the sick for the two hours the bombardment lasted. The American hospitals in this group were not touched.

CROWDER SAYS WORK OR FIGHT

IDLERS AND MEN DOING NON-ESSENTIAL WORK ARE TO BE ASKED TO EXPLAIN BY LOCAL BOARDS

(Special Service to Glendale Evening News)

WASHINGTON, May 23.—Men of the draft age must work or fight, Provost Marshal General Crowder announced today stating the rule will become effective July 1. The plan is to immediately seize gamblers, racing men, bartenders, waiters, hotel and apartment house workers, mne in domestic service and other non-essential work. Their dependency exemption will be no protection and the fact that these men are not usefully employed will outweigh any deferred classification.

Local draft boards will be empowered to weed these men out, summon the non-essentialy employed and the idle and give them a chance to explain. If the explanation is unsatisfactory they will be drafted. Local boards will be empowered to force registrants to work whether they are registered in that district or not.

General Crowder declined to specify whether or not this order will affect baseball players. The plan is to replace men shifted or sent to the army with women.

ON THE AMERICAN FRONTS

ENEMY TAKES PRECAUTIONS TO AVOID LOSING PRISONERS WHO MIGHT GIVE INFORMATION

(Special Service to Glendale Evening News)

WITH THE AMERICAN ARMY IN FRANCE, May 23.—Today's official communique states that artillery activity is decreasing and there are no new developments. Lieut. Kurtz, an American aviator fell inside our lines and was killed. Apparently his death was accidental.

WITH THE AMERICAN ARMY IN PICARDY, May 23.—The Germans are taking great precautions to avoid losing prisoners. They have ceased to send out patrols and withdraw nightly from their front line trenches, apparently to prevent the Americans from gaining any information of offensive preparations through prisoners. Aerial activity day and night is heavy. Our back areas are constantly bombed and shelled.

L. A. BOY WOUNDED IN ACTION

NAME OF THOMAS BERTOLINO APPEARS IN CASUALTY LIST ISSUED BY WAR DEPARTMENT TODAY

(Special Service to Glendale Evening News)

WASHINGTON, May 23.—Today's casualty list includes the names of fourteen killed in action, twelve dead of wounds, eleven dead of disease, thirty-one severely wounded, including Thomas Bertolino of Los Angeles and Sotero Navarro of West Berkeley. Nine were slightly wounded and one missing.

TWO RAIDS ON PARIS

(Special Service to Glendale Evening News)

PARIS, May 23.—It is announced that there were two distinct air raids over Paris last night.

The first was repelled by a barrage before any damage was done in the city.

The second raid, which came in several relays, succeeded in dropping a number of bombs before the invading machines could be driven off.

BOMBARDMENTS IN ANCRE VALLEY

(Special Service to Glendale Evening News)

LONDON, May 23.—General Haig reports German bombardments in the Ancre valley east of Robecq and east of the Nieppe forest.

British raiding parties operating at Ayette, Boisleu and St. Mart were highly successful.

The enemy rushed a British post at Avelny wood and two Britishers are missing.

CALIFORNIA'S CREDITS

SENATOR JOHNSON PLEADS FOR RECOGNITION OF RESPONSE OF GOLDEN STATE

When the newspapers announced that President Wilson was in favor of allowing credits on their quotas to states which have sent large numbers of men to the army and navy by voluntary enlistment, Chairman Lanterman of the local Exemption Board wrote California representatives in Congress calling their attention to the splendid record made by California in this regard and asking for an expression of opinion. In response he has received communications from Congressmen Osborne and Randall and from Senator Hiram Johnson. In this connection Mr. Lanterman states that the coming draft in western states will not yield as many men as are counted upon because so many young men have enlisted voluntarily. He has quoted a statement made to him a day or two ago by a Burbank resident who assured him that the seventy men who have gone from that little city have practically exhausted its man power of the draft age fit for service. Of nineteen states which have exceeded their quota, California heads the list with a quota of 4,754 and enlistments totalling 17,015. Other states in this class are:

Connecticut, quota 2228, enl. 4946.
Dist. of Columbia, qta. 662, enl. 1465.
Florida, qta. 1504, enl. 3315.
Georgia, qta. 5218, enl. 7672.
Idaho, qta. 650, enl. 2505.
Indiana, qta. 5400, enl. 18,254.
Iowa, qta. 4400, enl. 12,163.
Massachusetts, qta. 6732, enl. 19,127.
Michigan, qta. 5620, enl. 17,739.
Minnesota, qta. 4150, enl. 9567.
Montana, qta. 752, enl. 5912.
Nebraska, qta. 2854, enl. 8186.
Nevada, qta. 162, enl. 1537.
New Jersey, qta. 5074, enl. 10,026.
Ohio, qta. 9534, enl. 19,767.
Oregon, qta. 1344, enl. 6569.
Utah, qta. 764, enl. 4180.
Wyoming, qta. 290, enl. 1316.

A number of states have not yet filled their quotas as shown by figures from War Department records which were presented in the Congressional debate and made a part of the record. These as quoted by Mr. Lanterman include Alabama, Arkansas, Mississippi (quota 3594, has sent 1788), North Carolina, South Carolina, Vermont.

Senator Johnson's letter to Mr. Lanterman follows:

Washington, D. C., May 14, 1918.

Dear Sir:

Your letter of May 3d in relation to the next draft quota, duly reached me.

I quite agree with the sentiment you express. The government asked for volunteers at the very time we were administering the draft, and not only the men taken by the draft but those who volunteered at the government's request should be credited to our state. The fact of the matter is that if California received the

(Continued on Page 2)

DEATH OF JOHN J. ZIPPRODT

John J. Zipprodt, who has been a resident of this city for the past nine years died at his home, 916 Chestnut street, Glendale, May 21st, 1918, at about eleven p. m. He was 65 years of age and came to California from Highland, Illinois. He is mourned by his wife, Ida Zipprodt, a daughter, Louise Zipprodt, and another daughter, Mrs. F. H. Eilers of 333 South Adams street. Funeral services in charge of Scovern, Letton & Frey will be held at the Little Church of the Flowers in Forest Lawn Memorial Park Friday, May 24th, at 2 p. m.

TAKE OVER TROPICO WATER SYSTEM

H. B. Lynch, Manager of the Public Service Department of Glendale, was in attendance Wednesday at a hearing in the Union Oil building, Los Angeles, concerning the city of Glendale taking over the Tropico water system. Examiner Westover before whom the hearing was held, indicated that all requirements in making the change would be sufficiently out of the way so the plant may be formally taken over June 1.

PUBLICITY ASSISTANCE

The management of the Evening News is pleased to thank all persons who so willingly assisted in a financial way with the Red Cross War Drive publicity the past two weeks. The people who came to the aid of the daily newspaper in this grand work did so in a spirit of such cheerfulness that the publisher has been made to feel that he does not need to stand alone when it comes to defraying the expense of publicity that is for a worthy cause.

GIVES HEIRLOOM

ANCIENT SILVER SUSPENDER BUCKLES WILL BE SOLD FOR RED CROSS

One of the Red Cross workers in the drive has had an experience which has renewed his faith in the hundred per cent patriotism of Glendale citizens. The story he tells is of calling upon a woman past middle age, of Scotch-French ancestry. Her husband is partially crippled and their means are limited, nevertheless she was anxious to make a donation to the Red Cross. She gave $2 and then added another for her husband, but still was not satisfied, though that was the limit of the cash they could bestow. Then she bethought herself of some treasured solid silver suspender buckles made in 1643, which have descended as an heirloom from generation to generation in her family and which she had been keeping for her children. She promptly convinced herself that they would do more good to the Red Cross than to her children and so presented them to the worker to be used as he saw fit for the cause. He was much touched by such an exhibition of patriotism and is arranging to display them at the Saturday evening reception at the Elks' Club House, when he expects they will be auctioned off to the highest bidder. The giver of the buckles traces her ancestry to a granddaughter of Mary Stuart, the Scotch queen who was executed by order of Queen Elizabeth of England.

SANITARIUM GRADUATION

The faculty and graduating class of the Glendale Sanitarium and hospital have issued invitations to the annual commencement exercises which will be held in the auditorium of the Third street school, Tuesday evening, June 11. The following will receive diplomas:

Hazel Mignon Bergstrom
Celia Fern Evans
Hattie Luella Evans
Maye Hansena Hansen
Daisy Dean Harris
Arthur George Elvin
Nena Emmelyn John
Doris Ann Miller
Genevieve Lawrence Morlan
Maude Simons Riley
Ruth Charlotte Shufelt

FOREST LAWN TO CO-OPERATE

Comrade Robert Taylor reports that the Forest Lawn Memorial Park Association will co-operate with the N. P. Banks Post of the Grand Army of the Republic in the decoration of graves and suitable services on Memorial Day, May 30th. They will not take place until 3 o'clock in the afternoon as the Post is due at Burbank at 10 o'clock in the morning.

TO THE MIDDLE WEST

MERWYN MILLS RETURNS FROM A TRIP TO COLORADO AND UTAH

Merwyn Mills, auditor of the Glendale-Montrose Railroad, has just returned from a ten-days trip to Colorado. Most of his time was spent in Denver, but he also stopped in Salt Lake City, where he visited the Temple, the Tabernacle, in which he heard the big organ, and other places of interest to tourists. He was greatly surprised at the preponderance of the Mormon population, which is about 60 per cent of the citizenship.

The weather in Denver he found quite similar to the California variety and he had an exceedingly nice time there where, among other pleasures, he made trips to Lookout and Long Mountains, which were covered with six or seven feet of snow. The altitude was about 14,000 feet which he noticed, but it did not affect him unpleasantly.

The large tourist population of Denver was a great surprise to him. The city boasts eighty first-class hotels with a population of 250,000, which is more than Los Angeles has. He attributes this fact to a climate favorable to throat and lung troubles, which brings many ailing people to the state. Denver has established a tuberculosis camp on its outskirts.

He traveled via the Denver & Rio Grande and therefore saw the Royal Gorge, which impressed him and which he says is fully up to the representations of the tourist guide books. It was wonderful to find a railroad in such a situation, which winds round and round the mountains for miles and miles to reach points which are separated but a short distance by air line. The Nevada Desert he found anything but attractive as it was hot, dusty, monotonous, dry and disagreeable.

GLENDALE, CALIFORNIA, THURSDAY, MAY 23, 1918

CALIFORNIA'S CREDITS

(Continued from Page One)

credits due for voluntary enlistments on the next draft of 800,000 there would be no quota from our state. Two other states are in a like situation. It happens, unfortunately, however, that the Secretary of War, General Crowder and the President have taken a contrary view and have refused to permit credits to States for volunteer enlistments. The matter was the subject of some comment by me in the Senate yesterday and the states which would be taken from the various states in case credits were given for volunteer enlistments I presented so that our people could see just what states responded to the government's call for volunteers and just what states did not. I enclose a copy of my remarks to you.

Sincerely,

HIRAM W. JOHNSON.

The Congressional Record sheets enclosed show that in the course of the debate Senator Johnson said:

"If the government continues to make its appeals as it has made those appeals in the past, if States which are enthusiastic respond to the call and appeal as some of these States have done and then there is no recognition of that enthusiasm but quite a contrary view taken by the department, it seems that it will penalize enthusiasm and militate more or less against voluntary enlistments in the future. There ought to be one course or the other. If you require, for instance, so many men from a particular locality and those men are produced by that locality, that ought to be the end of it; either one mode or the other should control. If the draft alone is to control, this should be made plain. If the government, however, begs for volunteers, appeals for enlistments, and adopts the volunteer system in conjunction with the draft, as it has done, then full credit should be given for the numbers received from both draft and volunteer enlistments."

Mr. Lanterman states that the letters he has received from Congressmen Randall and Osborne express the same views, and the Congressional Report shows that Senator Phelan supported his colleague in the debate.

DYING OUT

For one reason and another many apple varieties are declining in production. Among them are widely known kinds, such as Ben Davis, Northern Spy, Esopus Spitzenburg, Tompkins King, all kinds of Russet, Hubbardston, Missouri Pippin, Tolman Sweet, Smith Cider, Fameuse or Snow, Yellow Bellflower, Twenty Ounce, Rambo, Swaar, Red Canada, Wolf River, Fall Pippin, and other commercial varieties. And to this list would be added many noncommercial ones.

And you are not even asked to give —only lend—
BUY THRIFT STAMPS.

GERMAN SHOOTS PRISONER

LONDON, May 23.—Because he refused to bring coffee at the order of his German guard, Private Joseph Barry of the Scots Guard was shot to death while interned in Germany, according to information brought here today by a former fellow prisoner.

Barry, according to the story, was taken prisoner in the early part of the war and imprisoned at Sennelager. One day one of the guards ordered him to bring coffee from the camp to the bathhouse

"Englishmen don't drink coffee," replied Barry.

The guard then ordered Barry's fellow prisoners to stand away from him, leaving Barry standing alone. The guard put the rifle to his shoulder and shot Barry, who died within a few minutes.

According to information received the guard was up for trial, but the disposition of the case is not known.

THE BIG PARADE

Talk about your big parades;
I've got one in my mind
That puts to shame the Caesars' shades,
And leaves the stars behind!

It passes 'neath the linden trees
And over Wilhelm street,
With banners waving in the breeze,
And tramp of marching feet.

I see the British Union Jack,
The noble flag of France,
The Belgian red and gold and black,
Floats by before my glance.

I hear the highland Scottish pipes,
And—what is this I see?
Ahead of all—the Stars and Stripes:
The ensign of the free!

Here's to The Day when this parade
Shall march through old Berlin,
To make all autocrats afraid,
And welcome Freedom in!

CALIFORNIA'S FAVORITE APPLE

The Yellow Newtown, or Albemarle Pippin, is California's favorite apple. Its leading district is the Pajaro Valley, Cal., where 1,000,000 boxes were produced in 1916 within a radius of 15 miles from Watsonville. Following California in order of production is Oregon, where the Yellow Newton districts are the Hood River and Rogue River valleys. Washington is third in order and Virginia fourth.

William Mulholland, chief engineer of the Los Angeles city water department, states that the installation of electric power at four of the city pumping plants will cut the consumption of oil from 4000 to 6000 barrels per year. Last year 16,000 barrels of fuel oil were used at the various city pumping plants. Machinery is now on the way for the Wilmington auxiliary station and the Macy street station. Electric power will be used at the Edendale and Garvanza stations as soon as machinery can be secured.

YOU may wonder in these times how we can sell a shoe like this at the price we ask. Some people are paying $10 and $12 today for shoes which we think are no better —if as good. This is a Selz all-leather shoe built of well selected stock. The workmanship is of the highest class as are all Selz shoes. It does not seem like war times at this store in either variety or price.

THE BOY SCOUTS

LOCAL COUNCIL TO BE FORMED TO CO-OPERATE WITH SCOUT MASTERS

A very enthusiastic meeting of parents interested in the Scout movement assembled in the Third street school last Friday night with Charles H. Toll acting as chairman. In addressing the meeting he gave an interesting resume of the work accomplished by the Scouts in Glendale, after which Los Angeles County Commissioner of the Boy Scouts of America, C. M. Miller, told of scouting in general and its many phases, laying particular emphasis on the fact that Scouts are being trained to fill authoritative positions in civil life. The meeting was then opened for general discussion. E. D. Baker, Scout Master of West Glendale troop, stated that their organization had only been in existence for three weeks with an enrollment of fifteen boys and practically all are able to pass the tenderfoot test even at this early date, which demonstrates how eager the boys are for this training.

Dr. H. B. Crawford of Glassell Park stated that he had between fifteen and twenty aspirants, and had made arrangements with Commissioner Miller to start next Friday night.

R. L. McNitt, Scout Master of Eagle Rock Troop No. 1, also gave an interesting account of the Scout movement as he has had an opportunity to study it in his visits to the large cities throughout the United States, and showed clearly how necessary it was to have a local council for communities the size of Glendale.

Mr. Guthrie, the very efficient Scout Master of Glendale Troop No. 1, recounted the work accomplished in his local troop, and stated that owing to other pressing duties and lack of time he was forced to resign. A very enthusiastic and hearty appreciation for the splendid work he has done in developing the boys was tendered him.

It was decided that Glendale form a local council to co-operate with the local Scout Masters in the capacity of an advisory board. Plans will be laid to start several new troops to give all boys opportunity to join an organization in our community. This includes Greater Glendale, Eagle Rock, Glassell Park and Burbank. Mr. Toll appointed the following committee to submit nominees for such a council and these will be elected at a meeting one week from Friday night, June seventh: John P. White, Chairman, R. L. McNitt, Mr. Whaley, Dr. H. B. Crawford, E. D. Baker.

FREAKS OF A TORNADO

The following interesting account of the tornado which recently passed through Northern Illinois, is taken from the Tri-County Press of Polo, Illinois, bearing date May 6, 1918, a paper formerly owned by the present owner of the Evening News.

"This section with others in this county, this state and Iowa was visited by a tornado last Thursday evening. This tornado, it is said, followed much the same path as the one that visited Ogle and Carroll counties almost twenty years ago to a day. The former one, which did more damage, occurred May 18th, 1898, during the Spanish-American war.

"Last Thursday had been a typical summer day, with sunshine and showers alternating during the day. Towards evening the wind rose and the sky gave every evidence of a storm, but few interpreted it to mean a tornado. Early in the evening a funnel-shaped cloud appeared in the southwest, which those who remembered 1898 correctly interpreted, and awaited news that would confirm or deny their predictions.

"It soon came from the B. F. Barnhizer farm about three miles southeast of this city, where the tornado wrecked all the farm buildings with the exception of the house. This it moved about four inches, while it broke in the windows and crushed in the roof by hurling the corn crib against it. To the fact that they sought the cellar when the storm approached, the family attribute their escape from death. Here the storm performed its usual 'stunts.' For instance, it picked up the garage, tore it to splinters and scattered it about, while it picked up the Ford and set it down in the garden with only a slightly torn top to tell the story that it had been in the path of the tornado. Trees were uprooted or left standing as the wild fancy of the storm dictated. The telephone wires and poles were also bady wrecked.

"It wrecked the silo on the Wm. Wisner place, destroyed the orchard —one of the best in this vicinity— tore off the porch of the house, wrecked the silo and did other damage.

"The storm next visited the Wm. Loheffer farm east of Mt. Morris, where it wrecked a large barn, burying fifty head of cattle beneath the debris. Over a hundred men worked most of the night removing the wreckage and hay from the imprisoned animals, of which thirteen had perished.

"But it was at Bryon that the storm did the most damage.

"Homes were blown from their foundations, barns were turned over and demolished; automobiles were carried from the road for distances of several hundred yards; coal, grain, lumber and machine sheds were destroyed, and even a train was tipped over by the force of the tornado.

"There is not a window left in all northwest Byron, not a single pane of glass having escaped.

"With an estimated property loss of a quarter of a million dollars in the village and roundabout Byron as a result of the tornado, the great wonder in the minds of all who were in the thick of the storm is that no one was killed."

STATE NEWS

SAN FRANCISCO, May 22.—Three legislative steps to improve the status of California state banks and make their membership in the federal reserve system more desirable, were recommended today by the sub-committee on economics of the state council of defense. The report points out that at present there is no particular advantage in a direct way, to be gained by state banks in joining the federal reserve system. The proposed legislation in the report is set forth as follows:

. There might be an amendment to the state bank act that would provide special immunities or opportunities for state banks which would enter the federal reserve. By this plan state banks would have to be made subject to no burdens or obligations in excess of those carried by national banks, while certain special opportunities already enjoyed by the state institutions would be continued.

2. The federal reserve act might be so amended as to provide special inducements for the entrance of state banks. This has been done already in the provision that state banks once admitted may later withdraw—a privilege which national banks do not enjoy.

3. The National Bank Act might be so amended as to enable state banks to surrender their present charters and enroll themselves as national banks without surrendering special privileges already enjoyed, such as concern loans on real estate, the conduct of savings accounts, and similar matters in which the national banks are more narrowly restricted.

"Every one of these proposals, as expressed in these general terms, finds its advocates among the state bankers of California," the report says, "but to get them to agree upon a legislative program acceptable either to congress or the legislature would be no small task."

SACRAMENTO, Cal., May 22.—A. B. Fletcher, state highway engineer, today denied a story carried by a press association to the effect that the state is preparing to spend $12,000,000 on the state highway system on approval of the federal reserve officials in Washington. Fletcher said the story was purely imaginative. "The state has no intention of spending $12,000,000 on the highway system, and we have received no approval from the federal reserve officials to sell highway bonds," Fletcher said. The commission six weeks ago asked the federal reserve officials to approve the sale of $5,500,000 worth of bonds for necessary highway work.

EUREKA, Cal., May 22.—"From what I have seen of the Fritzies, and I've seen over 100 prisoners, if that's the best the Kaiser can scrape up, I can lick a whole regiment with one hand," wrote Corporal Blaine Barnett, medical corps, to relatives here.

POMONA, Cal., May 22.—Will a cabbage by another name smell as sweet? is the question sauerkraut devotees were asking themselves today. They have reason to worry, too, for L. C. Johnson of Pomona has offered a prize for the best "substitute name" for the popular German dessert.

PASADENA, Cal., May 22.—Have a little tobacco plant in your war garden, is the advice of Dr. G. A. Goodrich of Pasadena. Dr. Goodrich, who has raised tobacco in his own garden with good success, urges smokers to start "growing their own" as a means of conservation. He praises southern California tobacco highly.

LOS ANGELES, Cal., May 22.—When Miss Beatrice Woodard and Mrs. W. J. Nelson appeared before Judge Ray Chesebro accused of malicious mischief, they got a bouquet instead of a jail sentence. They were accused of picking flowers in a city flower bed. But when they explained they had come to Los Angeles from an arid section of Arizona and couldn't resist the appeal of the first flowers they saw, the judge gallantly left the bench, presented the fair defendants with the bouquets, which had been confiscated as evidence, and dismissed the cases.

WERE THE BOY SCOUTS IN THE PARADE SATURDAY?

Not only did the Scouts assist the police in handling the crowds and in carrying official messages, but they had the honor of escorting nearly every society or division in the parade, including the city council and officials. Their own division was headed by Mr. Pollard, Scout Executive of Los Angeles District, and the official staff. Their division constituted two blocks and the fife and drum corps was hailed with applause all along the line of march.

Two engineering corps have started the survey of the proposed new road traversing the Lompoc Valley in Santa Barbara county. The road will be about twenty-eight miles in length and will cost about $200,000. It will practically parallel the Santa Ynez river, starting at Surf and extending through Lompoc and Santa Rita to Buell flats.

Personals

Glen Eyrie Chapter O. E. S. will hold a regular meeting this evening, but no social.

Dr. Henry R. Harrower goes today to San Bernardino to lecture before the local and county decial associations.

Madame F. Clisbee of New York City will spend the summer with her sister, Mrs. G. Love of West Colorado street.

Cecil Percy of La Crescenta will entertain with a party Friday night for members of the cast of the senior play, "Green Stockings."

Patriotic exercises will be held in all the public schools of Glendale on Friday which have been arranged by Rev. C. R. Norton, Chaplain of the California-Nevada department of the G. A. R.

Miss Ruth Wilson of 326 South Louise street will give a recital with her piano pupils Friday evening, May 24th, at the home of Mr. and Mrs. A. E. Fowler, 1530 Burchett street. It will begin at 8 o'clock and parents and friends of pupils are cordially invited.

Mrs. Blackburn, cashier at the Red Cross Chapter headquarters, reports that the conscience money delivered to her by Mrs. Glen Craig, which was collected from the men of the Todd family at their reunion picnic feast at the beach because of the richness of their picnic feast, amounted to $2.41. The Red Cross, she says, is glad to encourage such picnics.

AUTO AND BICYCLE COLLISION

Various rumors have been circulating around Glendale in regard to a collision between Dr. Ralph Lusby of this city and a bicyclist. From the testimony of the doctor and others it appears that as the doctor was motoring to Los Angeles Wednesday evening about five o'clock he collided with a man on a bicycle who unexpectedly ran out from Laurel avenue onto Brand boulevard directly in front of his machine. The doctor was driving at a moderate rate of speed and endeavored to stop but was not able to do so before striking the bicycle. He immediately administered first aid and took the cyclist to Thornycroft hospital, where he received further treatment for three superficial lacerations and where he remained until today, Thursday, when he returned to his home.

DEATH OF MRS. WYCKOFF

Mrs. Ella Louise Wyckoff, wife of W. C. Wyckoff of Burbank, passed away at 200 East Second street, Glendale, where she had been staying for a week, Wednesday, May 22, at 9:25 p. m. Mrs. Wyckoff was born in Ohio June 16, 1850, so was nearly 68 years of age.

Mr. and Mrs. Wyckoff were early settlers in Burbank and have been well known and influential in that section of the valley for a great many years.

The remains are at the Pulliam Undertaking company's parlors awaiting the time of the funeral, which will be at that place Saturday at 2 p. m.

MUSIC SECTION

The Music Section of the Tuesday Afternoon Club will be entertained Friday at 2:30 p. m. at the home of Mrs. F. S. Balthis, 519 North Brand boulevard. The program will be in charge of Mrs. Harry Greenwalt. "Woman's Work in Music" will be the subject of the day, combined with "Great Singers." An interesting program has been prepared which will include songs by Mrs. Thomas Ogg. Mrs. L. N. Hagood will play some Chaminade numbers and little Bettie Hagood and Marie Hearnshaw will also contribute numbers.

CONSOLIDATION OF TWO SHOE STORES

Widney's Shoe Store of Glendale and the College Boot Shop No. 2 of Los Angeles will open a beautiful new shoe store with all of the up-to-the minute ideas of a shoe business on or before June 15, 1918, to be located at 557 South Broadway, Los Angeles. Mr. Widney and his family will still live in Glendale.

JUDGE MILLER'S QUALIFICATIONS

Judge H. M. Miller is not only able to preside over the local court in an able manner, but he also knows how to tie the nuptial knot. His qualifications can not be confined to these two items, for he has proven himself a fisherman with a place in the lucky angler's class. Wednesday night's catch of the finny tribe in the Santa Monica bay region is proof of his success as a fisherman.

HONOR BANNERS

GLENDALE WORKS FOR GREATEST PER CENT MARGIN OVER QUOTA IN DRIVE

Vice-Chairman Lawshe of the Glendale Red Cross Chapter is in receipt of information from headquarters respecting honor banners which will be awarded to chapters in California. There will be three of these banners, viz.: National Honor Banner, Divisional Honor Banner and State Honor Banner. The highest award will be given under Class A to the chapter which exceeds its quota with the greatest percentage of margin to its credit, the report to be made to Division Headquarters on the evening of May 27th.

In Class B the same awards will be made, the first premium going to the chapter having the greatest number of contributors in proportion to the population of territory within a chapter's jurisdiction.

Sweepstakes honors will also be given for all the chapters in the Pacific Coast Division, which includes the three states of California, Nevada and Arizona. First premium under Class C will be given to the chapter which goes over the quota with the greatest percentage of margin to its credit, reports to be sent to Division headquarters on the evening of May 27th. Under Class D, first premium will go to the chapter having the greatest number of contributors in proportion to the population of the territory within a chapter's jurisdiction.

PATRIOTIC SIFTING

(Continued from Page One)

cases the sacrificing contributions of most of our citizens, it is meet that we consider at this time the per capita response of our people generally. Do you know that scarcely 17 per cent of our residents in the U. S. contributed to the last Liberty drive? What shall be said of those who failed to respond? Do you know that less than 25 per cent will respond to this appeal?

"Democracy means not only the right to enjoy the privileges of our citizenship, but it also carires with it the responsibilities of service that come to each patriotic citizen. For the benefit of future drives, and they will undoubtedly be many, not only for Liberty Loans but for Y. M. C. A., Knights of Columbus, and Red Cross work, we ought at this time to really consider seriously the problem of listing and classifying those who are able to contribute and who do not, so that a means may be devised effectively to get them into line or deprive them of the profits of citizenship, viz., the privileges. In Glendale, if it has not already been done, we should organize a committee of unprejudiced, broad-minded men and women who would take the lists of those who have failed to contribute in this campaign and first, by careful investigation of each case, attempt to get subscriptions, using all ordinary arguments dictated by patriotism and in the event of failure to respond I would publish the names of those who are slackers so that all of our people who have given of their time and energy in this and similar campaigns after this war is over may learn who to support in business ventures and who to distrust in all matters involving united and public-spirited action."

Mr. Pearce also referred to the need of sacrifice on the part of all who are enjoying the benefits of our government during the trying times before us and adverted to the sacrifices made known to us by the pages of history, the loyal devotion to a cause evidenced by the founders of our government who for seven long years under circumstances and conditions even more trying than the present contest, waged battle against the then world's greatest power to establish and maintain a democracy for themselves and future generations. Said he:

"The soldiers of Washington facing death by starvation and freezing at Valley Forge gave no thought to the rigors of that campaign but kept constantly before them the aim of the contest, the establishment of a free and independent democracy. Those who in the trying times of our Civil War responded to Abraham Lincoln's call for volunteers and fought out again the battle of democracy during that bloody and intensive four years, gave little thought to the annihilation of their personal fortunes or the possibility of sacrificing their lives for the principle involved.

"So today, the real patriot, tested by terms not of privilege but of service, gives little consideration to what he may personally sacrifice but joys in that sacrifice and is earnestly backing up our government to the fullest extent for the successful culmination of this, the greatest contest in history."

He then referred to the part that women have taken in this war without minimizing in any way the sacrifices of the men who both in the trenches and in the government service are doing their utmost to eliminate today the Kaiser and his Prussian autocracy from world politics.

He referred to the work of local women in the various Red Cross organizations and cited the impression that the various service flags of the nurses' organizations in the Red Cross parade in Los Angeles created, where it was estimated there had gone from the hospitals of the city 400 trained nurses who could have remained in their ordinary positions but who chose to risk all of the horrors of camp life and all of the dangers of bursting shell and flying shrapnel in order to do their bit not only for the Red Cross but for suffering humanity who are fighting our battles in France.

Mr. Pearce also commented on the wonderful unification that has resulted from this war, giving the present Red Cross drive as an illustration, saying: "Our community heretofore has had excusable differences of opinion on matters of civic improvement. We have all had our various creeds and dogmas respecting religion and have differed radically respecting partisan politics; yet the institution for which we are soliciting funds this week gives Democrats, Republicans and Prohibitionists an opportunity to work on a common basis for a glorious aim. It enables the Catholic, Episcopalian, Methodist, Baptist and Presbyterian alike to work shoulder to shoulder for a common cause. We forget what may be real differences in peaceful times; we forget petty partisanship and we all aim toward the accomplishment of the big adventure and are back of our government and our great war president. We are back of every means devised by him or his administration to carry to a successful conclusion the armed conflict in Europe."

The coast of California for a good part of the year swarms with mackerel. They are found close to shore, where any one may easily catch them. They are food fish of the highest quality, but the fishermen do not catch them for they can not sell them.

REMOVE BAN ON ADVERTISING

At the recent convention of the American Institute of Architects held in Philadelphia a resolution was adopted striking from the canons of ethics Article 4, which was to the effect that "it is unprofessional to advertise." The convention also authorized a rewording of the circular of advice to bring it into harmony with the canons as they now stand and to show the difference between the good and the bad in advertising. This action was taken by the convention on the recommendation of the special committee, of which Thomas Kimball was chairman, appointed at the last previous convention to consider and report upon a definition of advertising with recommendations as to the attitude the institute should take.

NEW UNIVERSITY CALENDAR

By unanimous vote of the Academic Senate on the recommendations of President Ide Wheeler, the University of California has adopted a new calendar, or schedule, for the University year, 1918-19.

As a result of the action just taken, regular University exercises will be resumed in the fall on October first, instead of the third week of August, as in the past.

The radical changes in the calendar have been made necessary, it is explained, by the imperative need for supplying labor during the "peak load" of the harvest season in California, which occurs at a time which ordinarily would fall within the University's schedule of exercises.

BIG CROPS

Lankershim is facing its greatest season, and every effort will be put forth to handle it advantageously. Every pound will be harvested and marketed if possible. The first problem is the large potato crop which will be ready for the market about the middle of June. Lankershim will produce near 75 carloads, and it is feared that with other potatoes coming into the Los Angeles market at this time, the marketing conditions will not be of the best for price or demand. The Chamber of Commerce has been appealed to to get eastern shippers interested, that a couple of train loads might be shipped east to relieve the local congestion. These potatoes come from the north section of the district, and show what a prosperous section that has become to Lankershim.

LOCAL WAR BOARD

The suggestion made recently that Monrovia could work more effectively in the war if all war activities were managed from a centralized, permanent committee or board was crystallized when the city council named a War Activities Board of fifteen representative men and women. Without in the least interfering with the smooth-running machinery of the Liberty Loan Committees, Red Cross chapters and other organizations, the War Activities Board will, according to the plans of the men who conceived the idea, stand as a permanent body to which any war activity can be referred for action.

WEATHER FORECAST—Fair except foggy along the coast tonight and tomorrow morning.

ROSES ROSES

Take your pick at $1.25 a dozen from over 3000 plants of 2 and 3 years growth. Some single bushes are easily worth 50 to 75 cents each.

THE GREATEST MOTHER IN THE WORLD

STRETCHING forth her hands to all in need; to Jew, Gentile, black or white; knowing no favorite, yet favoring all.

Ready and eager to comfort at a time when comfort is most needed. Helping the little home that's crushed beneath an iron hand, by showing mercy in a healthy, human way; re-building it, in fact, with stone on stone; replenishing empty bins and empty cupboards; bringing warmth to hearts and hearths too long neglected.

Seeing all things with a mother's seventh sense that's blind to jealousy and meanness; seeing men in their true light as naughty children—snatching, biting, bitter—but with a hidden side that's quickest touched by mercy.

Reaching out her hands across the sea to No Man's Land to cheer with warmer comforts thousands who must stand and wait in stenched and crawling holes and watersoaked entrenchments where cold and wet bite deeper, so they write, than Boche steel or lead.

She's warming thousands, feeding thousands, healing thousands, from her store; the Greatest Mother in the World—the Red Cross.

Your help is needed—give till the heart says stop.

Every cent of every dollar received for the Red Cross War Fund goes for War Relief.

The American Red Cross is the largest and most efficient organization for the relief of suffering that the World has ever seen.

It is made up almost entirely of volunteer workers, the higher executives being without exception men accustomed to large affairs, who are in almost all cases giving their services without pay.

It is supported entirely by its membership fees and by voluntary contributions.

It is today bringing relief to suffering humanity, both military and civil, in every War-torn allied country.

It plans to help the work of restoration throughout the world.

It feeds and clothes entire populations in times of great calamity.

It is there to help your soldier boy in his time of need.

With its thousands of workers, its tremendous stores and smooth-running transportation facilities, it is serving as America's advance guard—and thus helping to win the war.

Congress authorizes it.

President Wilson heads it.

The War Department audits its accounts.

Your Army, your Navy and your Allies enthusiastically endorse it.

Twenty-two million Americans have joined it.
